

## FISHING TOUR (DEEP SEA OR INSHORE) - CAPE TOWN

1 DAY / PART OF TEAM BUILDING / CLIENTS / ENTERTAINMENT

### All inclusive fishing tour and you keep your catch!

Spend the day with experienced skippers fishing. Enjoy ice cold refreshments while freshly caught fish are prepared and cooked to perfection. What better way to entertain your clients and turn a corporate relationship into a long lasting friendship. The fishing trip includes all the needed professional fishing gear.

### Example itineraries

10h30-14h30	Enjoy trolling and bottom fishing in and around Robben Island with snacks and drinks on board	04:00
14:30-15:00	Transfer to lodgings	

A day in the deep exposes you not only to world class fishing but also to the diverse ecosystem it hosts from dolphins and **Killer Whales** to **Albatross** and **Pintado Petrels**. The boats are well appointed and offer all the creature comforts necessary for entertaining your captivated audience.

The Cape has some of the richest Tuna grounds in the World today. The Yellowfin Tuna found in the Cape waters often top the scales at 80 kgs plus and we catch Longfin of 20 kgs plus. A day out in the deep will long be remembered as it brings you into contact not only with one of the worlds toughest fighting fish but also into a diverse ecosystem. Out in the warm water currents, you will get the opportunity to see numerous species of Albatross, Killer Whales (Orca) and Dusky Dolphins.

**The TUNA Season** runs from Sep to June, with the best times being at the beginning and end of the season.

**Cape YELLOWTAIL** is a member of the Carynx family and is a formidable fighter. We normally find these fish around the infamous Cape Point, which offers the visitor the opportunity to see this landmark from a whole new angle.

We tend to incorporate this fishing day with a bit of **Crayfishing** (West Cost Lobster) and one can expect a decadent Crayfish lunch on board. Season runs from May through to November.
