Safari Game Drives

Morning and evening safari game drives are led by experienced and knowledgeable game rangers who share their knowledge of big game as well as the many other antelope species, birdlife and local African folklore.

Become part of Africa as you experience our Big 5 Safari Adventure in the malaria free Game Reserves in the Eastern Cape of South Africa..

Included in your stay are morning and evening game drives leaving from your lodge. You will be guided by informative, professional rangers in open Land Rovers. Here you can return to nature and explore the abundant wildlife, the diverse vegetation and the dramatic landscape of the Eastern Cape.

Wildlife you are likely to see

On 18 000 acres of the Reserve the animals that you are likely to encounter are: lion, elephant, rhino, buffalo, cheetah, giraffe, zebra, wildebeest, monkeys, tortoise and plenty of antelope species. You might be lucky and see some of the more elusive and shy animals like hyena or bat eared fox.

This is your chance to be privileged enough to see the world famous African animals close up in their own habitat. The focus of the game drives is not only the large majestic beasts but also the humble smaller mammals, birds and insects which will leave you in awe.

For a change of pace relax on board boat cruise while meandering lazily along the Bushman's River.
